Flow Diagram for Admission Discrepancies

1. **Discrepancy between GS Med and admission orders?**
   - No: Done (don’t check off any differences)
   - Yes: Team’s PAML is incorrect?

2. **Team’s PAML is incorrect?**
   - Yes: History error. If clinically important, may need to contact team to correct error.
   - No: Look in medical records. Documentation of why med was changed?

3. **Look in medical records. Documentation of why med was changed?**
   - No: Is the discrepancy clinically relevant?
   - Yes: Intentional (Clinical Reason)

4. **Is the discrepancy clinically relevant?**
   - No: Use your best judgment. Was the discrepancy likely intentional? When in doubt, assume unintentional.
   - Yes: Contact the clinical team? Did you do this on purpose?

5. **Use your best judgment. Was the discrepancy likely intentional? When in doubt, assume unintentional.**
   - Unintentional: Reconciliation error
   - Intentional: Intentional (Clinical Reason)

6. **Contact the clinical team? Did you do this on purpose?**
   - No: Reconciliation error. Team may need to correct the error.
   - Yes: Intentional (Clinical Reason)
Flow Diagram for Discharge Discrepancies

Discrepancy between GS Med and discharge orders?

No

Done (don’t check off any differences)

Yes

Team’s PAML is incorrect?

Yes

History error. If clinically important, may need to contact team to correct error.

No

Look in medical records. Documentation of why med was changed?

No

Is the discrepancy clinically relevant?

Yes

Intentional (Clinical Reason)

No

Use your best judgment. Was the discrepancy likely intentional? When in doubt, assume unintentional.

Unintentional

Reconciliation error

Intentional

(Clinical Reason)

Yes

Contact the clinical team? Did you do this on purpose?

No

Reconciliation error. Team may need to correct the error.

Yes

Intentional (Clinical Reason)
