2020 Leapfrog ASC Survey Scoring Algorithms

<https://www.leapfroggroup.org/asc>

This document includes the scoring algorithms for the 2020 Leapfrog ASC Survey. The scoring algorithms are organized by section:

- [Section 1 Basic Facility Information](#)
- [Section 2 Medical, Surgical, and Clinical Staff](#)
- [Section 3 Volume and Safety of Procedures](#)
- [Section 4 Patient Safety Practices](#)
- [Section 5 Patient Experience](#)

For a hard copy of the Leapfrog ASC Survey, which includes measure specifications, endnotes, and FAQs, please visit the [Survey Materials webpage](#).

Leapfrog is committed to data accuracy. Please carefully review Leapfrog's data accuracy protocols on our [website](#).

Scoring and Public Reporting Overview

Once a facility submits a Leapfrog ASC Survey via the [Online ASC Survey Tool](#), the submitted responses will be scored using the algorithms detailed in this document. Only those responses that have been submitted will be scored and publicly reported; saved responses will not be scored or publicly reported.

Generally, Leapfrog [publicly reports](#) Survey Results beginning on July 25 for facilities that submit by June 30, and these facilities are able to preview their Survey Results on the [ASC Details Page](#) on July 12. However, in 2020, as part of Leapfrog's [COVID-19 response](#), Leapfrog will not publicly report Survey Results until **September** for ASCs that submit by **August 31**. The ASC Details Page will be available on the same day that Survey Results are published.

After September, the ASC Details page and [public reporting website](#) will be refreshed monthly within the first five (5) business days of each month to reflect new and updated Survey submissions until the Survey closes for the year on December 31, 2020 (updated from November 30 as part of Leapfrog's [COVID-19 response](#)). More information about Survey submission deadlines is available on our [website](#).

ASCs should review their Survey Results following their submission to ensure accuracy and completeness.

For the purposes of [public reporting](#), performance on each measure on the Leapfrog ASC Survey is placed into one of four performance categories:

- **Achieved the Standard** (displayed as four filled bars)
- **Considerable Achievement** (displayed as three filled bars)
- **Some Achievement** (displayed as two filled bars)
- **Limited Achievement** (displayed as one filled bar)

Additional scoring terms include:

- **Does Not Apply:** This term is used for facilities that report not performing a particular procedure or do not have applicable patients and/or units for a particular measure.
- **Unable to Calculate Score:** This term is used for facilities that report a sample size that does not meet Leapfrog's minimum reporting requirements.
- **Not Available:** This term is used for ASCs that scored "Some Achievement" or "Limited Achievement" on the Hand Hygiene Standard to indicate that some data was not available due to the COVID-19 crisis. *This term is new and will only be used for publicly reporting the Hand Hygiene Results from the 2020 Leapfrog ASC Survey.*
- **Declined to Respond:** This term is used for facilities that do not submit a Survey.
- **Pending Leapfrog Verification:** This term is used for facilities who have Survey responses that are undergoing Leapfrog's standard verification process.

See the example legend from Leapfrog's public reporting website below.

Progress towards meeting Leapfrog standards:

What's New in 2020

In response to COVID-19, Leapfrog [announced](#) several changes to the 2020 Leapfrog ASC Survey. Please carefully review the scoring and public reporting information below:

- The Late Submission Deadline will be extended by 30 days from November 30 to December 31, 2020 to give ASCs even more time to submit a 2020 Survey. As previously announced, public reporting will begin in September with Surveys submitted by August 31.
- Updates to the following scoring algorithms have been made for the 2020 Leapfrog ASC Survey: All ASCs submitting a 2020 Leapfrog ASC Survey will be required to respond to the new Hand Hygiene subsection. However, only ASCs that score “Achieved the Standard” (or four out of four bars) or “Considerable Achievement” (or three out of four bars) will have their Results publicly reported. ASCs that report on the subsection and score less than “Considerable Achievement” will be publicly reported as “Not Available,” which will be described on our public reporting website as unavailable data due to the COVID-19 crisis.

Change Summary Since Release

April 13, 2020 - [Section 4A Medication and Allergy Documentation](#)

Scoring updated to reflect change in definition of a ‘sufficient sample size’ from 60 to 30 cases. This update is intended to ease the burden of data abstraction while facilities are responding to COVID-19.

September 8, 2020 - Added Scoring Cut-Points [5A Patient Experience \(OAS CAHPS\)](#)

Leapfrog published cut-points for the Patient Experience (OAS CAHPS) measure using Surveys submitted by August 31, 2020. See page 20 for more information.

Section 1: Basic Facility Information Scoring Algorithms

General Information, Accreditation, and Transfer Policies and Agreements

This section will not be scored in 2020. However, the responses will be shown on Leapfrog’s public reporting [website](#). For example, Leapfrog will display the number of operating and/or procedure rooms.

Section 2: Medical, Surgical, and Clinical Staff Scoring Algorithms

Certified Clinicians Present While Patients Are Recovering

Facilities will be scored on whether an Advanced Cardiac Life Support (ACLS) trained clinician, plus a second clinician, are always present and immediately available while adult patients are present in the building and whether a Pediatric Advanced Life Support (PALS) trained clinician, plus a second clinician, are always present and immediately available while pediatric patients are present in the building. Additionally, to achieve the standard, a physician or CRNA must be present at all times and immediately available in the building until **all** adult and/or pediatric patients are physically discharged from the facility

Note: Facilities that have a physician or CRNA serving as their ACLS or PALS trained clinician are not required to have a third clinician present while patients are present in the facility.

Section 3: Volume and Safety of Procedures Scoring Algorithms
--

Volume of Procedures

In 2020, responses to the annual volume of each procedure performed will not be scored. However, responses will be used to facilitate the search functionality on Leapfrog’s public reporting [website](#) (e.g., allowing users to search for facilities that perform the procedure they need) and the information will be publicly reported to inform purchasers and consumers about the facility’s experience with the procedure.

Fact-finding questions regarding registry participation will not be scored in 2020, and responses will not be shown on Leapfrog’s public reporting [website](#).

Patient Follow-up

This section will not be scored in 2020, and responses will not be shown on Leapfrog’s public reporting [website](#).

Patient Selection

This section will not be scored in 2020. However, responses will be shown on Leapfrog’s public reporting [website](#). Leapfrog will display the components of a facility’s patient screening tool.

Patient Consent to Treat

This section will not be scored in 2020. However, responses will be shown on Leapfrog’s public reporting [website](#) alongside information about procedure volume.

Safe Surgery Checklist

Facilities will be scored on the use of a safe surgery checklist and whether elements of the checklist are documented and used on every patient undergoing an applicable procedure.

Limited Achievement	The facility does not use a safe surgery checklist on all patients undergoing an applicable procedure.
Declined to Respond	The facility did not submit a Survey.
Pending Leapfrog Verification	The facility’s responses are undergoing Leapfrog’s standard verification process.

Section 4: Patient Safety Practices Scoring Algorithms

This section will not be scored in 2020, and responses will not be shown on Leapfrog's public reporting [website](#).

NHSN Outpatient Procedure Component Module

Data from the NHSN Outpatient Procedure Component Module is downloaded by Leapfrog for all facilities who 1) [join Leapfrog's NHSN Group for ASCs](#), 2) enter their NHSN ID in the Profile Section, and 3) submit a 2020 Leapfrog ASC Survey.

Leapfrog will be downloading available data from NHSN for each facility for the following:

- Same Day Outcome Measures (SDOM) Module*
- Breast Surgery (BRST) Procedure SSI Outcome Measure
- Herniorrhaphy (HER) Procedure SSI Outcome Measure
- Knee Prosthesis (KPRO) Procedure SSI Outcome Measure
- Laminectomy (LAM) Procedure SSI Outcome Measure

*Applicable to all ASCs.

In 2020, an ASC's performance category for this measure will be calculated based on enrollment in the NHSN OPC Module and 1) completion of the 2019 OPC Annual Facility Survey, 2) participation in surveillance and reporting for the four Same Day Outcome Measures, and 3) participation in surveillance and reporting for all applicable Surgical Site Infection Measures, as follows:

For facilities that have **one or more** applicable Surgical Site Infection Measures:

*The Leapfrog Group’s original five principles include: apologizing to the patient, performing a root cause analysis, reporting to an external agency within 15 days, waiving all associated costs, and making a copy of the policy available to patients and payers upon request.

Section 5: Patient Experience Scoring Algorithm
--

Patient Experience (OAS CAHPS)

Facilities will be scored based on Top Box Scores from four domains included on the Outpatient and Ambulatory Surgery (OAS) CAHPS Survey:

- Facilities and Staff
- Communication About Your Procedure
- Patients' Rating of the Facility
- Patients Recommending the Facility

Facilities will be scored based on the number of domains where the facility is performing in the top quartile.

Top Quartile for OAS CAHPS Domains (Quartiles [Q])	Facilities and Staff (%)	Communication About Your Procedure (%)	Patients' Rating of the Facility (%)	Patients Recommending the Facility (%)
Top Quartile (>= Q3)	>= 97	>= 93	>= 88	>= 87

Patient Experience (OAS CAHPS) Score (Performance Category)	Meaning that the facility...
Achieved the Standard	Scored in top quartile of facilities on 4 out of 4 OAS CAHPS domains.
Considerable Achievement	Scored in top quartile of facilities on 3 out of 4 OAS CAHPS domains.
Some Achievement	Scored in top quartile of facilities on 2 out of 4 OAS CAHPS domains.
Limited Achievement	Scored in top quartile of facilities on 1 or fewer OAS CAHPS domains or the facility did not measure.
Unable to Calculate Score	The facility did not meet the minimum reporting requirements for the measure (<100 returned OAS CAHPS Surveys).
Does Not Apply	The facility had too few eligible discharges (n < 300) to administer the OAS CAHPS Survey.
Declined to Respond	The facility did not submit a Survey.
Pending Leapfrog Verification	The facility's responses are undergoing Leapfrog's standard verification process.

Note: The top quartiles are based on the distribution of ASC and hospital performance from 2020 Leapfrog ASC Surveys and Section 10 of the 2020 Leapfrog Hospital Surveys submitted by August 31, 2020 (updated from June 30, 2020 as part of Leapfrog's [COVID-19 response](#)). These cut-points will remain in place for the entire Survey reporting cycle, unless it is determined that there are compelling reasons to make revisions.

Results from the 2020 Leapfrog ASC Survey will be available at <http://ratings.leapfroggroup.org/> in September 2020.

Beginning in October, Results are then updated within the first five (5) business days of each month to reflect new Survey submissions and resubmissions.
