Patient Rights & Ethics	X	X
Infections	X	X
Outpatient Procedures	X	X
Maternity Care	X	X
Pediatric Care	X	X
Adult Complex Surgery	X	X
VALUE SCORE	X	X

Custom Benchmarking Reports are created using the [Leapfrog Value-Based Purchasing \(VBP\) Program](#)TM methodology. The Leapfrog VBP Program creates composite scores from the measures on the Leapfrog Hospital Survey and focuses on the most important national patient safety, quality, and resource use standards. Hospitals are assigned a numerical Measure Score for each individual measure on the Leapfrog Hospital Survey, ranging from 0 (worst performance) to 100 (best performance).

Premium [Custom Benchmarking Reports](#) are available for hospitals that are interested in using their Leapfrog Hospital Survey Results for targeted quality improvement and for engaging with their hospital leadership and staff. The reports include national, state, and custom cohort benchmarks for Measure, Domain, and Value scores. For additional information, please visit <https://www.leapfroggroup.org/ratings-reports/custom-benchmarking>.

Leapfrog is not able to calculate a Value Score for some hospitals. For more information, download the Leapfrog VBP Program methodology on our [website](#).

Be sure to review your Survey Results on our public reporting [website](#) and on your [Hospital Details Page](#). We again thank you for your participation in the 2026 Leapfrog Hospital Survey, and we look forward to your continued participation in 2027.
