Domain Score Quartile Cut-Points			# Included Hospitals
Bottom	Median	Top	
64	76	84	1655
58	72	80	149
76	81	89	149

Complimentary Summary Report

- Complimentary Summary Reports are based on Surveys submitted by **August 31, 2025**
- What's included?
 - Your hospital's overall Value Score
 - Average overall Value Score across all hospitals nationwide
 - Your hospital's Domain Scores

Methodology

- Hospitals are assigned a numerical Measure Score for up to **45 individual measures** from the Leapfrog Hospital Survey
 - Measure Scores range from **0 (worst performance)** to **100 (best performance)**
 - These individual Measure Scores are assigned to one of up to **eight applicable domains**, weighted and then used to calculate Domain Scores and an overall Value Score
- | | | | |
|---|---------------------------|---|-----------------------|
| 1 | Medication Safety | 5 | Outpatient Procedures |
| 2 | Inpatient Care | 6 | Maternity Care |
| 3 | Patient Rights and Ethics | 7 | Pediatric Care |
| 4 | Infections | 8 | Adult Complex Surgery |

Sample Complimentary Summary Report

DOMAIN	YOUR HOSPITAL'S DOMAIN SCORES	NATIONAL AVERAGES

Premium Custom Benchmarking Reports: Overview

Includes your hospital's Domain Scores and Value Score provided in your Summary Report, **plus:**

- Comparisons to a **custom cohort** of your choosing (bed size, region, safety-net, teaching status, etc.)
- Your overall **Value Score** compared to the distribution of Value Scores nationally, state-wide and for your custom cohort
- Your **Domain Scores** compared to the distribution of Domain Scores nationally, state-wide and for your custom cohort
- Your individual **Measure Scores** for each of the 45 applicable measures compared to national, state, and your custom cohort averages
- Trends in performance by individual measure
- PowerPoint presentation to aid in communication with leadership

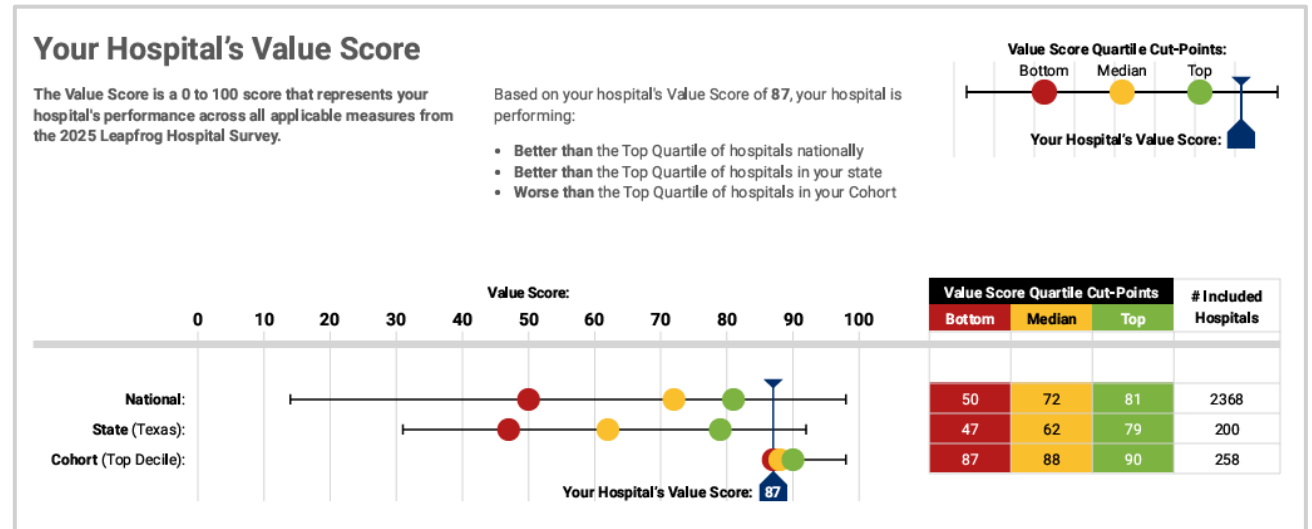

Complimentary Summary vs. Premium Report

	COMPLIMENTARY SUMMARY REPORT	PREMIUM CUSTOM REPORT
Your hospital's overall Value Score	✓	✓
Average overall Value Score across all hospitals nationwide	✓	✓
Your hospital's Domain Scores	✓	✓
Distribution of overall Value Scores for hospitals in your state	✓	✓
Distribution of overall Value Scores nationwide		✓
Distribution of Domain Scores for hospitals in your state		✓
Distribution of Domain Scores for hospitals nationwide		✓
Individual Measure Scores for your hospital, state average and national average		✓
Comparison to previous year's Survey Results by measure		✓
PowerPoint presentation to communicate results with leadership		✓
Custom cohort comparison (bed size, region, safety-net designation, teaching status) for your overall Value Score, Domain Scores and Measure Scores		✓

What's New?

The new and improved Custom Benchmarking Reports include:

- Easier to follow structure and organization
- Updated visuals to more easily understand how your hospital's performance compares
- A dynamic summary comparison of your overall performance
- Additional Measures: 45 Measure Scores
- Additional Domains: 8 Domain Scores

Your Hospital's Value Score

The Value Score is a 0 to 100 score that represents your hospital's performance across all applicable measures from the 2025 Leapfrog Hospital Survey.

Based on your hospital's Value Score of **83**, your hospital is performing:

- Better than the Top Quartile of hospitals nationally
- Better than the Top Quartile of hospitals in your state
- Better than the Top Quartile of hospitals in your Cohort

Domain Scores

The Domain Score is a 0 to 100 score that represents your hospital's performance across each of the eight applicable Domains: Medication Safety, Inpatient Care, Patient Rights & Ethics, Infections, Pediatric Care, Outpatient Procedures, Maternity Care, and Adult Complex Surgery. The measures included in each domain are displayed on pages 8-10 of this report, along with the measure and domain weights that contribute to the Value Score.

Measure Scores

Measure Scores and weights for each measure that apply to your hospital are displayed below, alongside national, state, and cohort averages for benchmarking. The Domain weights that contribute to the overall Value Score are displayed below as well.

Each measure on the Leapfrog Hospital Survey is scored according to the Leapfrog VBP Program™ methodology. The measures within each domain are weighted based on the following criteria: **Volume** (number of patients impacted by the measure), **Harm** (severity of harm being measured or resulting from hospitals not adhering to the clinical guidelines being measured), and **Resource Use** (avoidance of costs related to the measure). Weights for each measure and each domain are specific to your hospital based on the data available from this Survey.

					BENCHMARKS		
DOMAIN	DOMAIN WEIGHT	MEASURE WEIGHT	MEASURE	MEASURE SCORE	NATIONAL N=2458	STATE N=21	COHORT N=2337
Medication Safety	14.00%	5.25%	Computerized Physician Order Entry (CPOE)	100	96	87	96
		5.25%	Bar Code Medication Administration (BCMA)	100	98	90	98
		3.50%	Medication Reconciliation	100	68	26	68

Premium Plus Report

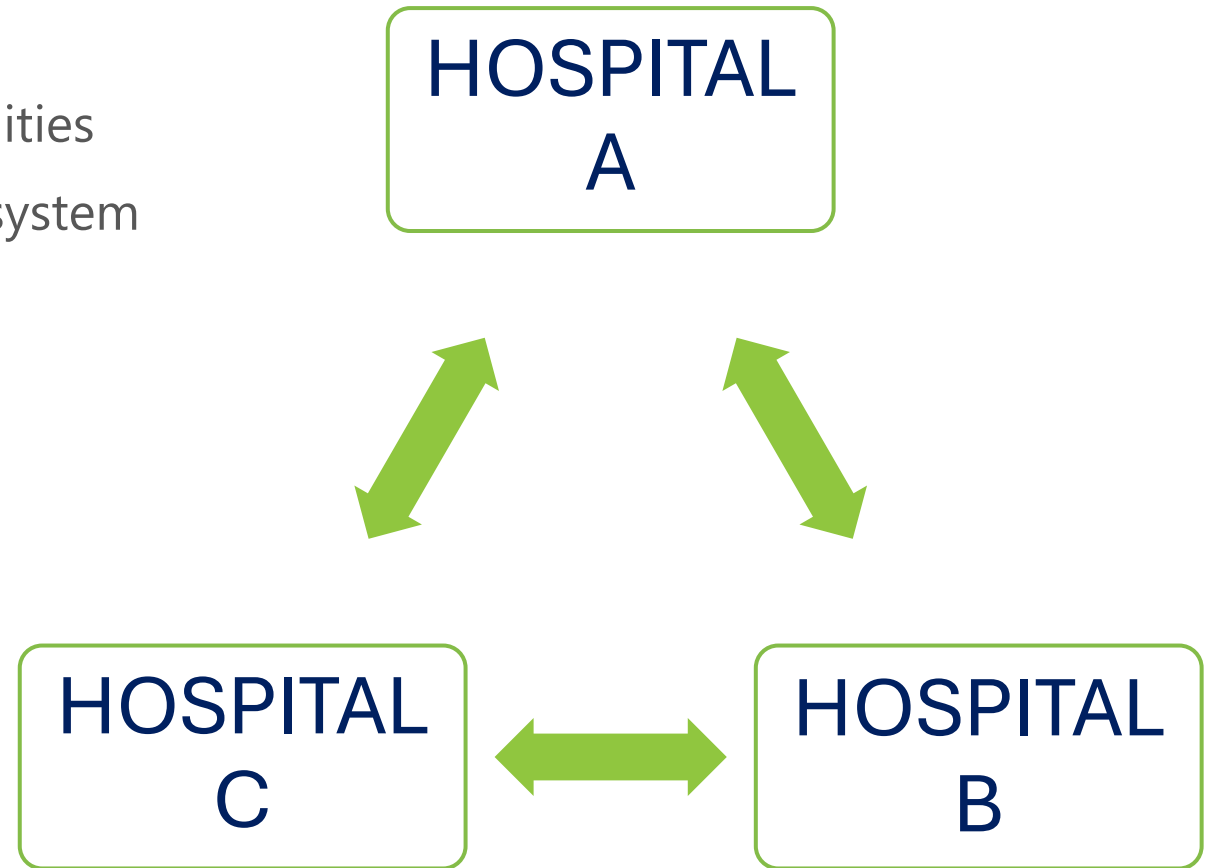

Includes everything in the Premium Report, **plus:**

- Tailored analysis by a Leapfrog expert in an executive report
- Additional PowerPoint slides with custom analysis
- One-hour live presentation for leadership and other stakeholders
- Live Q&A tailored to your organization

Health System Option

- Benchmarking for multi-hospital systems
- Individual reports for each hospital
- Custom cohort of your network facilities
- Compare performance across your system

How to make the most of your report

- Custom Benchmarking Reports can help you:
 - **Benchmark performance** at the individual measure level, domain level and using the overall Value Score
 - **Inform and engage board** and staff with easy to use and interpret scores on a 0 to 100 scale
 - **Inform quality improvement efforts** by identifying relevant process or outcome-based measures that need improvement to ensure patients are receiving the safest, highest quality care
